

Manufacturing date	2016 -
ATEX & IECEx marking	N/A. Suitable for hazardous conditions.
Product description	Antistatic end cap protector
Temperature classification	N/A
Operating temperature	-40°C ... +55°C
Material	Dissipative rubber
Surface resistance (typical)	$10^6 - 10^9 \Omega$

	Dimensions / mm	
	L	Ø
Protector Ex	177	79 to 101
